**Page** 5-39

**Figure Table** NA

**Category Name** Requirements

**Actionee** HAIS

**Sub Category**

**Subject** Possible additional minimum user registration requirements

## **Description of Problem or Suggestion:**

The minimum set of attributes for a user account seems to be too minimal to support a large-scale, distributed user base. I suggest the following additional requirements or specifications be considered:

1. Specify a minimum user and group identification code size and a mechanism for coordinating the assignment of these across DAACs
2. Account creation and expiration dates
3. Password expiration, minimum length, contents policy enforcement
4. Time of day, location, type of service restrictions.

## **Originator's Recommendation**

Consider and revise requirements if deemed appropriate.
